

The Louisiana Music Educators Association

2020-2021

Activities and Contingency Plans

PLAN A: Establish a calendar and prepare logistically for the traditional implementation of all-state, conference, and assessments with modification that align with safety guidelines, regulations, and economic realities.

PLAN B: Adjust calendar of activities, while planning and preparing logistically for a hybrid implementation of LMEA activities. This may include digital recordings for all-state auditions, digital conference clinics, on-line business meetings, with all-state and spring assessment performance in a modified live setting. Adjustments in literature, audience, and adjudication procedures would be explored as the plan develops. This plan would likely be implemented if restrictions are prohibitive to live performances in the fall semester are but more conducive in the spring semester.

PLAN C: Adjust calendar of activities, while planning and preparing logistically for LMEA activities to be implemented in a completely virtual and digital manner. This plan would be implemented in the situation that all live gatherings of students and music educators would be prohibited throughout the school year.

PLAN D: Only under the most critical of circumstances would LMEA suspend all LMEA activities. Even in such an extreme situation, LMEA would strive to maintain support and networking for LMEA members, their students, and music programs.

Music educators can do this.

Just watch us shine!
